

3U Quiz

$$\frac{14+1}{15} = \frac{15}{15}$$

Name _____

For each of the following, state the reflection, amplitude, period, phase shift, scale and vertical shift. Then graph one cycle of each function.

1. $y = -3\sin(5x) + 2$

2. $y = 4\cos(2x - 90) - 3$
