

ICS4U Midterm Interview

Topics for discussion

In our discussion, we will discuss the following topics. Please plan ahead so you know where to find relevant examples and material. If material is not available for the interview it will be considered to not exist.

Business Side

- Describe your client's requirements, and what they are looking for in a system.
- How have you interacted with your client?

Planning work

- What is the flow for the website that you're building?
- What should the website look like? (Mockups / desired page layout)
- How are you storing and managing your data?
- What are your major milestones and timelines?

Programming

- Discuss and demonstrate how you and your group has used PHP
- Discuss and demonstrate how you and your group has used HTML
- Discuss and demonstrate how you and your group has used JS
- Discuss and demonstrate how you and your group has used CSS
- Discuss and demonstrate how you and your group has used MySQL

Name: _____

Categories	R	Level 1	Level 2	Level 3	Level 4
