

Name: _____

ICS4U Final Interview

Topics for discussion

In your interview, we will discuss the following topics. Please plan ahead so you know where to find relevant examples and material. If material is not available for the interview it will be considered to not exist.

Business Side

- Give a detailed account of how you have / have not met your client's requirements
- How have you wrapped up the project with your client?

Planning work

- Please explain and reflect on how the following have changed from the original plan:
 - Website flow
 - Page designs
 - Database and data structure
- Please demonstrate and reflect on how you have met (or not met) your timelines

Programming

- Discuss and demonstrate how have used PHP
 - Focus: A good understanding of variables, arrays, looping, functions and output
- Discuss and demonstrate how have used HTML
- Discuss and demonstrate how have used JS
- Discuss and demonstrate how have used CSS
- Discuss and demonstrate how have used MySQL

Self-Learning

- Please give examples of how you have used independent learning to further your education
