

Progress Report Site Requirements

Admin:

- Upload data CSV files
 - Teacher semester 1 and 2 schedule
 - Student semester 1 and 2 schedule
 - Student number, email, and parent email
 - Uploading Course info and descriptions
- Archive classes and progress reports
 - Can view them after archiving
- Can view teacher schedules and missing progress reports
- Reports
 - Shows specific student's classes, and their progress reports in each class
 - One sheet PDF per student
 - Printable
 - This final report should be sorted by period 1 classes
- Can edit landing page text (setting in DB)
- Create due date for teachers to lock in progress reports
- Toggle to enable / disable teacher entry
- Button to email reports to students and parents

If the teacher is also an admin (eg: Mr Emmell) then it prompts them to a page where they can choose if they want to go to the teacher page or the admin page.

Teachers:

- Showing their classes from landing page (could be one, could be 10 courses)
 - Display course code
- Be able to see announcements from the admin on landing page
- Can see due date on landing page
- Can see class list for each
 - Students listed
 - Four levels also viewable for each student
 - Able to select premade comments or select your own.
 - Request parent teacher interviews (simple checkmark)
 - Edit and save button at the top of the page that let's teacher edit and save for all students
- Save work button, shows when save goes through.
- Everything should be as minimal as possible (time efficiency), ie: able to tab between boxes, etc
- Navigation for different classes (and link to landing page)

Evals (should be options in DB, not hard coded, including the number of choices):

- Exceeding Expectations
- Meeting Expectations
- Approaching Expectations
- Needs Improvement
